INTRODUCTION

The Impact We Wish to Deliver

- Integration, and increased retention of underprivileged students from transitional communities, into the public education system
- Improved health indices (body weight, height, BMI) through meal supplements and regular health check-ups
- Overall personality development through specialized learning programs

What We Do

- **Classroom teaching** in foundational subjects such as English, Hindi, Maths, EVS and Computer science – to reinforce concepts and help students “catch up” to their peers.
- **Nutritional support** with 1 meal a day with minimum of 500 calories, 8 grams of protein, and other vital nutrients.
- **Health check-ups** including anemia testing, immunization support, and eye check ups

AFTER SCHOOL CLUBS

Holistic development of the child:

- Foundational learning
- Promoting health & immunisation
- Providing nutritional support
- Extracurricular activities
- Safe space for social interaction

Our 'After-School Club' (ASC) program in Gurugram, Haryana, aims to supplement the functioning of the mainstream public education system for the transitional communities, by focusing on the following activities.

We work towards helping 'out of school children in developing the basic skills needed for them to be ready to take on formal learning in schools.

We also provide after-school support in the form of doubt clearance and reinforcement of key concepts for children who are already enrolled in government schools.

We essentially incentivise participation and involvement in learning through parent engagement and incentives like the provision of school supplies and learning aids, a meal supplement per day, as well as regular free health check-ups for the holistic development of our children.

School Clubs
228 children**

KEY ACTIVITIES

The children continued to come to school through the summer.

01

Regular Classes

Regular classes continued through the quarter, after the month long summer club. There was lots to learn, and catch up on!

02

Extra-curricular activities

Sundays continued to be fun-days, with four hours fun and frolic: hobby classes, outdoor games, singing, dancing, mehndi, sewing and cooking

03

Health Check

Monthly recording of height, weight.. On schedule supplements, and help with healthcare navigation.

04

New Developments

This was a busy three months: A new Club 6, the daycare program became more streamlined, the Special Abilities program was revamped, and ASC4 got a new building!!

DAYCARE CENTER

Our after school clubs usually take children above the age of four. But many of our older children are also child minders for their younger siblings, as their mothers go to work. They can, therefore, not attend school.

To help them continue their education, we started a small play area for children even two years old, in ASC. It now has seven children. The other ASCs also support our students by taking care of their younger siblings during school hours.

NEW BUILDING FOR ASC 4

ASC 4 moved out of the Sant Raidas Chaupal as the community needed the premises for the upcoming elections, and the marriage season. we moved into a beautiful three room building less than two hundred metres away, which has a sunny courtyard for the children to play in.

The children, and their parents are extremely happy with the new school building, one which is no longer interrupted by community events. Raman aunty's visit and dance with the children meant ASC 4 was the envy of all the other clubs!

ACADEMICS

Routine classes continued from July to end of September! The children came back to school full time after the half day extracurricular activities during the summer break, with extra classes for catch up learning.

NUTRITION

Feeding India now provides our children with nutritious hot meals daily. This collaboration means our students are well-nourished, which will promote their overall well-being- and enhance their capacity to learn and thrive academically. Together, we are fostering a healthier, more focused learning environment. With the occasional joyful days Wolof cake with pink icing!

EXERCISE AND PLAY

As the summer heat abated, and the monsoons meant cooler days- the children stepped outside to play. Of course the morning exercise remains a part of our curriculum, as always

GIRLS CIRCLE

The girls get together to discuss problems related to adolescence, menstrual health and any other problems that they face. The teachers are the facilitators for the dialogue, finding solutions for their problems, and help them with healthcare navigation.

Our Brand New Clothes

From our friends at Benetton, and The Little Fable boutique in Gurgaon! Our joy knows no bounds!!

Our Brand New School Supplies

From Hero MotoCorp means we have a nice bag to carry all our notebooks to school!!

HINDI DAY

Hindi Diwas was celebrated with great joy- children sang songs, recited poems and wrote stories to commemorate the occasion. These hands-on projects nurture their artistic skills and imagination, providing a fun and educational outlet for their creativity and energy.

JANMASHTAMI

Our children continued to have fun: art, music, board, dance drama, and educational adventures, creating cherished memories and more importantly, a sense of belonging as we celebrated Janmashtami with devotion and joy.

INDEPENDENCE DAY CELEBRATIONS

As always, the children of all the clubs got together to celebrate Independence Day on the 15th of August, at the Raidas Dharamshal. and as always, Nikhil uncle hoisted the national flag to a resound in h cheer and the National anthem. The children also put up a delightful song and dance show.

PTM

Parents play a crucial role in our After School Clubs (ASCs). Every month, they actively participate in the Parent-Teacher Meetings (PTM), showing their commitment to their children's education. Their regular attendance helps us strengthen the bond between home and school, ensuring better support for the students.

CLUB	JULY		AUGUST		SEPTEMBER	
CLUB	DATE	ATTENDANCE	DATE	ATTENDANCE	DATE	ATTENDANCE
ASC-3	21-7-2024	60/93	18-8-2024	60/96	23-09-2024	60/103

NEXT STEPS

We continue doing what we are doing, and hope to bring more children into the educational mainstream.

Our efforts for their holistic development remains on course.

**"The highest education is that
which does not merely give us
information but that makes our life
in harmony with all existence."
- Rabindranath Tagore**
