

VISION UNLIMITED AFTER SCHOOL CLUBS

VisionUnlimited

Quarterly Report
Apr - Jun 2022

Prepared by : Dr. Shibal Bhartiya

ABOUT US

The Impact We Wish to Deliver

- **Integration of underprivileged students** into the public education system
- **Increased student retention** in public schools
- **Improved health indices** (body weight, height, BMI) through meal supplements and regular health checkups
- **Overall personality development** through specialized learning programs

Key interventions We Make

- **Classroom teaching** in foundational subjects such as English, Hindi, Maths, EVS and Computer science - to reinforce concepts and help students “catch up” to their peers
- **Nutritional support** with 1 meal a day with minimum of 500 calories, 8 grams of protein, and other vital nutrients
- **Health check-ups** including anemia testing, immunization support, and eye check ups

Key Highlights

- **370+ students**
- **Seven Qualified teachers** experienced in teaching slum children, two volunteer teachers, one substitute teacher
- **Partnership with local Primary Health Centre** for ongoing health check ups
- **Meals designed by a qualified nutritionist**
- **Partnerships** for food and health supplements

AFTER SCHOOL CLUB

Our 'After-School Club' (ASC) program aims to supplement the functioning of the mainstream public education system for the community, by focusing on the following activities.

- We work towards helping 'out of school children in developing the basic skills needed for them to be ready to take on formal learning in schools.
- We also provide after-school support in the form of doubt clearance and reinforcement of key concepts for children who are already enrolled in government schools.
- We essentially incentivise participation and involvement in learning through parent engagement and incentives like the provision of school supplies and learning aids, a meal supplement per day, as well as regular free health check-ups for the holistic development of our children.

Outcomes

Our unrelenting efforts at ASC have led us to observe several lasting outcomes in children.

- A VU ASC Graduate is an individual ready to face the world with confidence and commitment.
- We instil in children a zeal for continued learning.
- There is a sense of readiness for formal school in children.
- Our purposeful aids help them in better retention and performance in formal school.
- Their overall physical and mental health is also enhanced by our multifaceted approach.
- They're equipped to form better relationships with the community, including peers and adults.

Impact

With every passing day, we come closer and closer to our vision of making a difference in as many lives as we can.

- Strong academic backgrounds in children help ensure sustainable livelihoods as adults.
- The enhanced skills in individuals lead to wider access to opportunities for them to achieve their aspirations.
- The knowledge that they gain plants in them is self-belief and efficacy.

AFTER SCHOOL CLUBS: THE NEW PARADIGM

The three Vision Unlimited After School Clubs cater to five slum clusters in Kadarapur, Badshahpur, which house about 625 families. This is what we know of our 370+ students from April through June 2022.

This was the first time we were able to take a month off from regular lessons- the schools worked everyday except Tuesday each day as always- but for the month of June, we had a summer camp. there was only one hour of regular tuition, and the kids participated in various extracurricular activities.

Total Number of Children

Gender Ration

Clubs	Male	Female	Total
ASC 1	53	56	109
ASC 2	97	69	166
ASC 3	58	43	101
Total	208	168	376

Most of our students are first generation learners, and have been out of school even before the pandemic. But they've coped well with the learning loss- responding enthusiastically to the remedial lessons which were the need of the hour.

This was a time for catch-up learning, with pupils and teachers alike, pulling up their socks for the long haul. This was also the time for joyous celebration: the oppressive stranglehold of death and disease over the community seemed to have relaxed, and our children and their families, like the rest of the city, were happiest to get back to life as usual.

HEALTH & NUTRITION

Midday Meal for Our Children

Our community kitchens are open again. Our school mothers are paid to cook for the children. Each of the ASCs have a fully functioning kitchen and their own cook, who are the happiest to cook, and serve, lunch to our students six days a week.

This meant a freshly prepared, nutritious meal for our children, which is served to them piping hot on the school premises, by one of the school mothers, and our teachers. The food requirements for all clubs are taken care of by private donations.

Continued support from the local community with biscuits, juices and other sweet treats meant our children often had a snack in addition to the hot lunch.

Menu:

Immunisation

The eligible children were administered Polio drops by the local PHC workers in the last week of January, as a mop up round of immunisation in ASC 1, 2 and 3.

Additionally, all the children above the age of 12 years, have received at least one dose of the COVID vaccine, in keeping with the nationwide immunisation program.

STAFF REORGANISATION AND RECRUITMENT

All of our teachers are well versed in computer use, and have started basic introductory computer classes for the children in all three ASCs. The summer camp brought out their other talents to the fore. Ms Tanuja took the lead in song and dance, Ms Shalu took over computer literacy classes, while Ms Kanchan did art and craft. Ms Preeti and Ms Komal took sewing classes, Ms Shashi taught the children embroidery, while Ms Babita was involved in story telling.

Teaching Responsibilities

ASC 1	Morning	Afternoon
Komal	ECE	After School
Preeti	NFE	ECE
ASC 2	Morning	Afternoon
Kanchan	ECE	After School
Shalu	NFE	After School
Tanuja	NFE	After School
ASC 3	Morning	Afternoon
Babita	ECE	ECE
Shashi	NFE	NFE

Our cooks in ASC 1 and 2 are both school moms. The third cook, in ASC 3, is a new mother who has lost regular employment because of her small child, but finds it easy to cook for us, since we are within the same jhuggi cluster as her home, and the teachers are happiest to babysit, whenever needed. They cook a hot lunch, six days a week, serve the kids, and also do the dishes for the younger children. The older children wash their own plates.

Another school mom, helps clean the ASC 2 six days a week, especially the kitchen, hallways, and the bathroom. The children are also responsible for keeping their classrooms clean

OUR GEMS:

Our First Class X Graduate

Dheeraj, from ASC 1, is the first of our students to appear in, and clear, the state senior school examination (Class 10)

conducted by the Board of School Education, Haryana. He did very well, scoring 58% marks, and has joined Class XI, in the arts stream. He continues to study with the After time students in ASC 1 and is very proud of the brand new bicycle, he received as a prize for his hard work.

Dheeraj's story is one of extreme grit and determination- his father suffered from a stroke, and the family left for the village. The teachers continued to work with him over the phone, and finally, six weeks before the exams, Dhiraj came back to ASC 1, living with his maternal uncle in a different slum cluster.

We wish him the very best, and hope to see him graduate from school in two years time, with flying colours.

Dheeraj with his new Cycle - A small gift from VU

Admission and Drop Out

Here are the details of new admissions, as well as drop outs, in the three ASCs.

ASC 1	Drop Out	New Admission
ECE	16	12
NFE	11	7
After School	15	5
Total	42	24

ASC 2	Drop Out	New Admission
ECE	2	1
NFE	9	3
After School	10	2
Total	21	6

ASC 3	Drop Out	New Admission
ECE	10	4
NFE	7	2
After School	13	5
Total	30	11

Overall	93	41

COMMUNITY ENGAGEMENT

Parent Teacher Meeting

The PTMs for this quarter were held each month in the three ASCs, and were attended by the parents with great enthusiasm. The topics covered were health and hygiene, nutrition, and students' progress. School 2 parents proposed to start with a uniform for the students, and also agreed to pay Rs 100 per child per month for extracurricular activities.

Club	Apr-22		May-22		May-22	
	Date	Attendance	Date	Attendance	Date	Attendance
ASC 1	27-Apr-22	50	22-May-22	73	26-Jun-22	80
ASC 2	17-Apr-22	90	22-May-22	87	26-Jun-22	94
ASC 3	24-Apr-22	70	27-May-22	48	26-Jun-22	77

CELEBRATIONS

Summer Camp

We had a whole month off this summer from routine studies. The various activities included: sewing, embroidery, paper craft, singing, guitar lessons, theatre, dancing and story telling.

Notably, one of our volunteers, Nirvaan Patnaik, took guitar lessons for the children, and also raised funds for providing all three schools with music equipment.

Aradhya Bhartiya and Nikita took singing lessons, and many other children assisted the teachers in organising the fun and games.

CHILD VULNERABILITY AND QOL SURVEYS

Three of our volunteers, Abhivir, Aadit and Shraddha helped us conduct comprehensive surveys to identify vulnerable children, the results of which are being analysed and will be presented separately.

The questionnaire was designed and validated under the aegis of Prof Dr. Tarun Deep Singh, Dept. of Preventive and Social Medicine, PGI, Chandigarh.

Our first case of Child Abuse

This was also the first time we, as a school, worked with the child protection services helping in the rehabilitation of one of our girl students, who was facing continued and brutal abuse at home. She is now safe, and happy under the guardianship of the state. For us, the experience was heartbreaking, and as much a learning, and it prompted us to undertake the above mentioned survey, in the hope of identifying more vulnerable children, and keeping them safe.

Counsellor from Child Protection Services

We have also started working with the counsellors, starting with ASC 2, to identify more at risk children.

Diversity and Inclusion Workshop

This also prompted us to start working with Ms. Pooja Sharma, who held a three day Diversity and Inclusion workshop, to sensitise our children about neurodiversity.

Our Volunteers

These youngsters have very ably assisted the ASC programs through this summer.

- Nirvaan Patnaik (Project Melody)
- Aradhya Bhartiya
- Nikita Nanavaty
- Aadit
- Abhivir Sharma
- Shraddha Merceri
- Myra
- Pooja Sharma

SCHOLASTIC ASSESSMENT

The details of the scholastic assessment of the three clubs are mentioned below. This includes both extra curricular and co-curricular assessments.
