The Impact We Wish to Deliver

- Integration, and increased retention of underprivileged students from transitional communities, into the public education system
- Improved health indices (body weight, height, BMI) through meal supplements and regular health check-ups
- Overall personality development through specialized learning programs

What We Do

- **Classroom teaching** in foundational subjects such as English, Hindi, Maths, EVS and Computer science – to reinforce concepts and help students “catch up” to their peers
- **Nutritional support** with 1 meal a day with minimum of 500 calories, 8 grams of protein, and other vital nutrients
- **Health check-ups** including anemia testing, immunization support, and eye check ups

AFTER SCHOOL CLUBS

Holistic development of the child:

- Foundational learning
- Promoting health & immunisation
- Providing nutritional support
- Extracurricular activities
- Safe space for social interaction

Our 'After-School Club' (ASC) program in Gurugram, Haryana, aims to supplement the functioning of the mainstream public education system for the transitional communities, by focusing on the following activities.

We work towards helping 'out of school children in developing the basic skills needed for them to be ready to take on formal learning in schools.

We also provide after-school support in the form of doubt clearance and reinforcement of key concepts for children who are already enrolled in government schools.

We essentially incentivise participation and involvement in learning through parent engagement and incentives like the provision of school supplies and learning aids, a meal supplement per day, as well as regular free health check-ups for the holistic development of our children.

**4 After
School Clubs**
343 children

KEY ACTIVITIES

The children continued to come to school through the summer.

01

Regular Classes

Regular classes continued until end of May, when the oppressive heat meant we reduced working hours

02

Summer Camp

Both batches came in the morning for two hours each of hobby classes that included singing, dancing, mehndi, sewing and cooking

03

Health Camps

We had a dental health camp where all the children were provided with toothpaste, toothbrushes and a demonstration on the technique of brushing. A hemoglobin test revealed widespread anemia and iron supplements were distributed.

04

Immunisation

The children got their routine immunisation, polio drops, deworming medication and vitamin supplements as prescribed

05

Kitchen

The kitchen was closed in June, and the children enjoyed ready-to-eat snacks like biscuits, cakes and popcorn during summer camp.

ACADEMICS

Routine classes were suspended in the month of May, but the children attended regular school in April and June

NUTRITION

Our kitchen was closed in the month of May, but the children got a tasty snack everyday to celebrate the holidays. The kitchen functioned as usual before and after the summer vacations, and the children got a hot cooked lunch in April and June

HEALTH CAMP

The dental health camp and the anemia detection camp were held on the 13th of April, 2023. Routine immunisation and mop rounds were scheduled as indicated.

Key Indicator	Activity / Project	Data / Outcome
Dental Health	Check up, referral for treatment, providing education as well as tooth brushes and toothpaste	• 76 children with tooth decay • Treatment underway
Anemia prevention	Check up, treatment	• 81% children anemic • Iron and multivitamin supplements started as prescribed
Routine immunisation	Immunisation as scheduled	• In association with local PHC • Mop-up rounds in school

SUMMER CAMP

The summer month of May was a "holiday" for our schools. Both batches came in the morning for two hours each of hobby classes that included singing, dancing, mehndi, sewing and cooking. We also tried to sneak in an hour of studies and story telling each week

VISIT TO ZOO & LOCAL PARK

Bhriгу, our volunteer teacher, decided that the children needed to see the animals they were learning about. So, with our teachers, he escorted our children to the Delhi Zoological Park on the 25th of April, for a day of fun, frolic and learning. Vision Unlimited even got a letter of commendation from the Govt of India for our children's participation in the Mission Life program!

PTM

Our parents are integral to the ASC's success.

Club	Apr-23		May-23		Jun-23	
	Date	Attendance	Date	Attendance	Date	Attendance
ASC-1	16/04/2023	43/110	28/5/2023	30/110	25/6/2023	45/110

NEXT STEPS

We continue doing what we are doing, and hope to bring more children into the educational mainstream.

Our efforts for their holistic development remains on course.
