INTRODUCTION

The Impact We Wish to Deliver

- Integration, and increased retention of underprivileged students from transitional communities, into the public education system
- Improved health indices (body weight, height, BMI) through meal supplements and regular health check-ups
- Overall personality development through specialized learning programs

What We Do

- **Classroom teaching** in foundational subjects such as English, Hindi, Maths, EVS and Computer science – to reinforce concepts and help students “catch up” to their peers
- **Nutritional support** with 1 meal a day with minimum of 500 calories, 8 grams of protein, and other vital nutrients
- **Health check-ups** including anemia testing, immunization support, and eye check ups

AFTER SCHOOL CLUBS

Holistic development of the child:

- Foundational learning
- Promoting health & immunisation
- Providing nutritional support
- Extracurricular activities
- Safe space for social interaction

Our 'After-School Club' (ASC) program in Gurugram, Haryana, aims to supplement the functioning of the mainstream public education system for the transitional communities, by focusing on the following activities.

We work towards helping 'out of school children in developing the basic skills needed for them to be ready to take on formal learning in schools.

We also provide after-school support in the form of doubt clearance and reinforcement of key concepts for children who are already enrolled in government schools.

We essentially incentivise participation and involvement in learning through parent engagement and incentives like the provision of school supplies and learning aids, a meal supplement per day, as well as regular free health check-ups for the holistic development of our children.

**4 After
School Clubs**
375 children

ACADEMICS

Routine classes were suspended in the month of May, but the children attended regular school in this quarter

NUTRITION

Our kitchen was closed in the month of May, but the children got a tasty snack everyday to celebrate the holidays. The kitchen functioned as usual before and after the summer vacations, and the children got a hot cooked lunch in April and June

AFTER SCHOOL CLUB 1: THE END

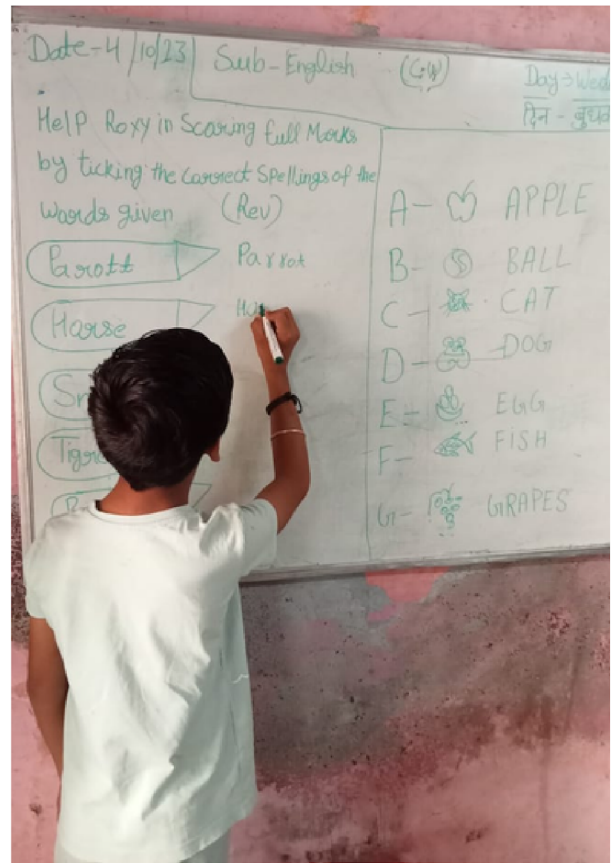

ASC 1 was started in July 2020, in a tin shanty, reinforced with steel framework for safety, in Badshahpur, Gurugram, Haryana. It catered mostly to children of domestic workers and construction workers (daily wage earners) in the neighbourhood. We started with 13 students, and one volunteer teacher. Eighty nine children were mainstreamed over the years, and the school took care of 393 students and their families, over three years. When the slum was razed, 120 students in two batches, were being taken care of by 2 full time teachers. Our last working day was the 9th of July, 2023.

**393 Children
89 Main-
streamed**

AFTER SCHOOL CLUB 5: A NEW BEGINNING

As the ASC 1 was destroyed, we along with our children and their families faced a heartbreak and despondency like no other. These children were now without a school, and without a home. And of course, we kept in touch with them over the phone. Twelve of our children found a place to stay about a kilometre away from ASC 1, while the others scattered all over Gurgaon. Some went back to their villages. For us, began the process of rebuilding- ASC 5 was started on the 15th of July, less than a week after ASC 1 shut down. With 33 students, as Preeti ma'am decided she needed to find a safe space for them. Within a month of opening ASC 5 takes care of 63 children from the neighbourhood, including 6 students from ASC 1. We are in touch with our other students, and are closely tracking their welfare.

63 Children Enrolled

EPIDEMIC KERATO- CONJUNCTIVITIS

The month of July held more in store: Like the rest of Gurgaon, our teachers and students battled an epidemic of keratoconjunctivitis. Five teachers, and 76 students, over a period of two weeks suffered from the viral infection- we were sending back students almost everyday, to prevent the spread of infections. The teachers held classes for the parents and the students about hand hygiene and contact isolation: but the disease continued to spread. We took care of those suffering, with help from the local PHC, and the disease ran its course over two weeks, and life at school became normal again.

**76 Children
5 Teachers
Affected**

AS IF THAT WASN'T ENOUGH

The flames of the communal violence, that began in the Mewat region's Nuh in the first week of August affected our schools as well. Clashes broke out in Gurugram, and our students, teachers and their families stayed home for more than a week.

Fleeing violence, most Muslim migrants in Gurugram faced job loss and heartbreak. Landlords who did not evict their tenants were beaten up, and the administration struggled to maintain communal harmony. Despite police efforts, the fear of persecution and threats from miscreants meant many children had to flee with their parents. Fifteen of our children were thus rendered homeless.

It is testimony to their spirit and resilience, and the untiring supports of their neighbours- and also the efforts of the district administration- twelve of our children are now back in school!

This is why their academic performance attendance for this quarter are both below par. Our teachers, of course, are working harder than ever, to make up for lost time, and to restore the bonhomie that defines life in our ASC.

AND WE CONTINUED TO CELEBRATE

Our children celebrated all the good there is: making Rakhis for each other- and promising to protect each other. Beyond roles defined and confined by gender, our children promised to be friends for life, and watch out for each other.

Through the darkest hours, the radiant spirit of Janmashtami shone as a beacon of hope, rekindling the flames of harmony and reminding us that our shared culture is stronger than any conflict.

JAWAN

Fifty one of our older kids went in to watch Jawan in the local Aria Mall, along with their teachers. Because like the rest of India, we also love SRK!

The children were chosen for the special treat based on attendance scores, and general proficiency. Their absolute delight was infectious, and they cheered each dialogue with great joy, and danced in the aisles once the movie was over- the popcorn and fizzy drinks made the afternoon even more memorable!

PTM

Our parents are integral to the ASC's success.

Club	Jul-23		Aug-23		Sep-23	
	Date	Attendance	Date	Attendance	Date	Attendance
ASC-2	16-Jul-23	60/144	13-Aug-23	62/144	24-Sep-23	60/180
